

# Stick it to 6th Annual Brain Tumors!

Wear gray in support of brain tumor awareness!

Women's Ice Hockey Tournament

March 30-April 1, 2012

Union College's Messa Arena

Schenectady, NY

to our 6th Annual "Stick It To Brain Tumors" Women's Ice Hockey Tournament. In the last five years we raised over \$91,000 for pediatric brain tumor research. Few other diseases attack the very core of our being as directly as brain cancer and this terrible disease has gone without attention for far too long. Hopefully this tournament will help to raise

awareness of this devastating disease that threatens the most vulnerable and innocent - our children. Wear **GRAY** sometime during the tournament to show your support in our battle against brain cancer!

**Thank You** to everyone who helped to make tournament a success. We cannot name everyone who helped but there were some people that were outstanding and must be mentioned. Thank you to **Adam Brinker**, who was instrumental in countless ways, obtaining the ice, promoting the tournament, coaching, cheering and simply being an energetic and wonderful human being. Thank you to **Kathy Zakriski**, an outstanding scrounger, basket maker and tireless supporter, always going above and beyond to help. Thank you to **Grammie Petito**, who gave us determination and unflagging good cheer. Thank you to the **Mustangs and their continued support!** Thank you to the **Frozen Assets** who adopted our cause! A special thank you also goes to the **Capital District's USA Hockey referees** who graciously donated their time! We would like to thank the **teams and players** for adding life to the tournament, and to **Union College** for hosting us at the spectacular Messa Rink. And we thank all those that made donations and to our **Sponsors** who support us financially year after year!

**Thank  
You!**

All proceeds are being donated to the **Pediatric Brain Tumor Foundation (PBTf)** and **Johns Hopkins Division of Neuropathology** for pediatric brain tumor research. Both are 501 (c) (3) nonprofit organizations dedicated to supporting the search for the cause of and cure for childhood brain tumors. John Hopkins is doing research on the type of tumor our son has.

**Thank You!**

Debbie and Craig Jackson

 **Wear Gray and Show  
Your Support for  
Brain Cancer Awareness!** 

Ps. We try to make this an **environmental friendly event**. Please recycle your cans, bottles and paper in the recycling bins at the rink - Union College has single stream recycling, so all recyclables go together. This book is printed on 100% post consumer recycled content paper saving 53 pounds of CO<sub>2</sub> equivalents, 219 gallons of water and much more!

## 2012 Stick It To Brain Tumors Game Schedule

Time	#	Div	Home	Away	Score	Points
Thursday 3/29

# 6<sup>th</sup> Annual Stick It To Brain Tumors Tournament Rules

## General Rules

Three periods - stop time.

Periods are 12 minutes.

Final period may go to running time to complete game in allotted time slot.

There will be a three minute warm-up from scheduled start time.

Minor penalties are 1:30 minute, majors will be 3:00 minutes.

There is Zero tolerance for fighting and player(s) will be ejected from the tournament.

Any player with five penalties in one game will be removed from the game.

All players must have full equipment.

Any disputes will be handled by the Rules Committee.

**HAVE  
FUN!**

## Recreational Division Rule

One goal allowed per person per game. If a player scores their second goal in the rec division, the face off will be inside the zone, and the goal does not count.

## Tournament Point System

Win = 2 points (1 point for tie)

Period = 1 point per period (1/2 point for tie)

Points Available = 5 per game

## Championship Game

Tie breakers to determine the teams for the Championship Game:

Head to Head Play

Least Goals Allowed

Most Shutout Periods

Most Shutout Games

Team with Least Penalty Minutes

Flip of a Coin

**Manhattan Bistro & Bagel**

**133 Saratoga Road**

**Scotia, NY 12302**

**518-399-3887**

If the Championship Game Is Tied after Regulation Time

5 minute overtime, sudden death.

If still a tie, there will be a shoot out (5 players from each team).

If still tied, there will be a sudden death shoot out (no repeat shooters, until everyone on the team has shot once).

Continue rotation until someone wins!

Each team is allowed one 30 second time out per game.

## Uniforms

The team listed first on the schedule is the home team and will wear **LIGHT/WHITE** jerseys.

The team listed second on the schedule is the visiting team and will wear **DARK** jerseys.

## Locker Rooms

The locker room assignments will be posted in the lobby of the rink.

## Facts about Brain Tumors\*

At this time, brain tumor research is underfunded and the public remains unaware of the magnitude of this disease. The cure rate for most brain tumors is significantly lower than that for many other types of cancer.

- ◆ Each year more than 200,000 people in the United States are diagnosed with a primary or metastatic brain tumor. Primary brain tumors comprise approximately 40,000 of these diagnoses.
- ◆ Metastatic brain tumors, cancer that spreads from other parts of the body to the brain, are the most common types of brain tumors. They occur in 10-15% of people with cancer. Primary brain tumors generally do not metastasize to other parts of the body.
- ◆ Brain tumors are the leading cause of solid tumor cancer death in children under the age of 20, now surpassing acute lymphoblastic leukemia (ALL). They are the second leading cause of cancer death in male adults ages 20-29 and the fifth leading cause of cancer death in female adults ages 20-39.
- ◆ There are over 120 different types of brain tumors, which make effective treatment complicated. They can be malignant or non-malignant, and in either case, can be just as injurious or life threatening. At present, the standard treatments for brain tumors include surgery, radiation therapy, and chemotherapy. These may be used either individually or in combination.
- ◆ There are currently no known causes of brain tumors, however, epidemiological studies are ongoing. Complete and accurate data on all primary brain tumors is needed to provide the foundation for investigations of its causes and research leading to improved diagnosis and treatment.
- ◆ Brain tumors have no socio-economic boundaries and do not discriminate among gender or ethnicity.
