Brain Tumors!

Wear gray in support of brain cancer awareness!

Women's Ice Hockey Fundraiser Tournament

March 28-30, 2014

Union College's Messa Arena

Schenectady, NY

Welcome

to our 8th Annual Stick It To Brain Tumors Women's Ice Hockey Tournament. In the last seven years we raised over \$135,000 for pediatric brain cancer research. Few other diseases attack the very core of our being as directly as brain cancer and this terrible disease has gone without attention for far too long. Hopefully this tournament will help to raise awareness of this devastating disease that threatens our most vulnerable and innocent - our children.

Thank You to everyone who helped to make tournament a success. We cannot name everyone who helped but there were some people that were outstanding and must be mentioned. Thank you to Adam Brinker, Kathy Zakriski, Messa Mustangs, Capital District's USA Hockey Referees, our Volunteers, Participating Teams, and Union College! And we thank all those that made donations and to our Sponsors who support us financially year after year!

Thank You!

Wear Gray!

Show your support
in our fight against
brain cancer!

All proceeds are being donated to the Pediatric Brain Tumor Foundation (PBTF) and Johns Hopkins Division of Neuropathology for pediatric brain tumor research. Both are 501 (c) (3) nonprofit organizations dedicated to research the causes of BT's and find better treatment options and someday a cure for brain tumors. Johns Hopkins is doing research on the type of tumor our son has.

Thank You!
Debbie and Craig Jackson

This is an **environmental friendly event**. Please recycle your cans, bottles and paper in the recycling bins at the rink. Union College has single stream recycling, so all recyclables go together.

This book is printed on 100% post consumer recycled content paper saving 53 pounds of CO₂ equivalents, 219 gallons of water and much more!

Facts about Brain Tumors*

At this time, brain tumor research is underfunded and the public remains unaware of the magnitude of this disease. The cure rate for most brain tumors is significantly lower than that for many other types of cancer.

Brain tumors are the second leading cause of cancer-related deaths in people under the age of 20, the second leading cause of cancer-related deaths in males aged 20-30, and the fifth leading cause of cancer-related deaths in females aged 20-39.

There are more than 120 types of brain tumors.

There are currently no known causes of brain tumors, however, epidemiological studies are ongoing.
