# Brain Tumors

**Wear GRAY to support our fight against brain cancer!**

We have all been impacted by the Coronavirus... the tournament was cancelled in 2020 and 2021, but we are back this year! So... welcome to our 2022 Stick It to Brain Tumors Women's Ice Hockey Tournament. Over the years we raised over \$250,000 for pediatric brain cancer research. Few other diseases attack the very core of our being as directly as brain cancer and this terrible disease has gone without attention for far too long. This tournament will help to raise awareness of this devastating disease.

**Thank You** to everyone who helped to make tournament a success. We cannot name everyone who helped but there were some people that were outstanding and must be mentioned. Thank you to **Brianne Brinker, Kathy Zakriski, the Messa Mustangs, Barb Allen, Gary Lanphear, all of our Volunteers, Raffle & Silent Auction Donors, Participating Teams, Barry, Rachel and Union College!** And we thank all those that made donations and to our Sponsors who support our cause financially year after year!

**Wear Gray!**  
**Show your support in our**  
**fight against brain cancer!**

**All** proceeds are being donated to the **Pediatric Brain Tumor Foundation (PBTF) and Johns Hopkins Division of Neuropathology for pediatric brain tumor research.** Both are 501(c)(3) nonprofit organizations dedicated to research the causes of brain tumors and find better treatment options and someday a cure for brain tumors. Johns Hopkins is doing research on the type of tumor our son has.

**Thank You!**

#### **Facts about Brain Tumors\***

At this time, brain tumor research is and the public remains unaware of the magnitude of this disease. The cure rate for most brain tumors is significantly lower than that for many other types of cancer.

- Brain tumors are the second leading cause of cancer-related deaths in people under the age of 20, the second leading cause of cancer-related deaths in males aged 20-30, and the fifth leading cause of cancer-related deaths in females aged 20-39.
- More than 4,600 children between the ages of 0-19 will be diagnosed with a brain tumor this year.
- Brain and central nervous system tumors are the most common cancers among children ages 0-19.
- In adults, nearly 70,000 new cases of primary brain tumors will be diagnosed this year.
- This year, about 14,000 people will lose their battle with a brain tumor.

There are currently no known causes of brain tumors.

**This Is An Environmental Friendly Event.**  
Please recycle your cans, bottles and paper in the recycling bins at the rink.

Union College has single stream recycling, so all recyclables can go together.

We have eliminated the plastic goodie bags this year to reduce waste.

## 2022 Tournament Rules
