## **Welcome Players, Coaches, Referees, Friends and Family!**

**WELCOME ALL ...** to the 3rd Annual "Stick It To Brain Tumors" Women's Ice Hockey Tournament. We hope that the players, their families, coaches, friends and supporters all have a wonderful time. On Sunday, two teams will emerge as victors on the ice. But long before that, every single participant in this tournament will have already become a winner by participating in this worthwhile event.

The last two years, these tournaments far exceeded our goals - - we raised over \$31,000. All of the funds raised at this tournament were used to help fund brain tumor research. Few other diseases attack the very core of our being as directly as brain cancer and this terrible disease has gone without attention for far too long. Hopefully this tournament will help to raise awareness of this devastating disease that threatens the most vulnerable and innocent members of our society.

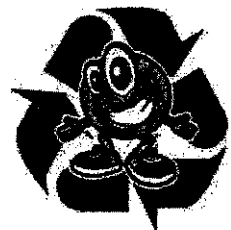

**Thank You** to everyone who helped to make this third "Stick It To Brain Tumors" a success. We were uplifted by the generous people who gave so freely of their time, ideas, and enthusiasm. It takes a lot of work to host this event, and without the help and support of many it could not have been a success. We thank the sponsors who trusted enough to support us financially.

And we give thanks to the **teams and players** for adding life to the tournament, and to **Union College** for hosting us at the spectacular Messa Rink. We can not name everyone who helped but there were some people that were outstanding and must be mentioned. Thank you to **Adam Brinker**, who was instrumental in countless ways, obtaining ice, promoting the tournament, coaching, cheering and simply being an energetic and wonderful human being. Thank you to **Kathy Zakriski**, an outstanding scrounger and tireless supporter, always going above and beyond to help. Thank you to **Irene Petitò**, who gave us determination and unflagging good cheer. Thank you to the **Frozen Assets** who adopted our cause and whose enthusiasm inspired us! Thank you to **Mustangs** who helped pull this all together. And a special thank you also goes to the **Capital District's USA Hockey referees** who gave us their best, put up with us, and did so without pay, thank you!

**From Our Hearts... Thank You!**

**Debbie and Craig Jackson**

**Ps.** We try to make this an environmental friendly event. Please recycle your cans, bottles and paper in the recycling bins at the rink. The program book is printed on 100% recycled content paper saving 53 pounds of CO<sub>2</sub> equivalents, 219 gallons of water and much more!

## 3rd Annual Stick It To Brain Tumors Tournament Rules

Three periods - stop time.

Periods are 12 minutes.

Final period may go to running time to complete game in allotted time slot.

Three minute warm-up from scheduled start time.

Minor penalties are 1:30 minutes, majors will be 3:00 minutes.

Zero tolerance for fighting, player(s) will be ejected from the tournament.

Any player with five penalties in one game will be removed from the game.

All players must have full equipment.

Any disputes will be handled by the Rules Committee.

**Recreational Division Rule:** One goal allowed per person per game. If a player scores their second goal in the rec division, the face off will be inside the zone, and the goal does not count.

### Tournament Point System

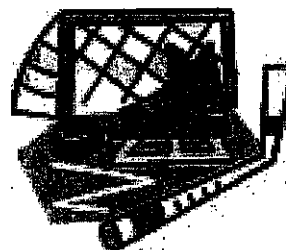

Win =	2 points (1 point for tie)
Period =	1 point per period (1/2 point for tie)
Points Available =	5 per game

### Championship Game

Each team is allowed one 30 second time out per game.

Tie breakers to determine the teams for the Championship Game:

- Head to Head Play
- Least Goals Allowed
- Most Shutout Periods
- Most Shutout Games
- Team with Least Penalty Minutes
- Flip of a Coin

### If the Championship Game Is Tied after Regulation Time

5 minute overtime, sudden death.

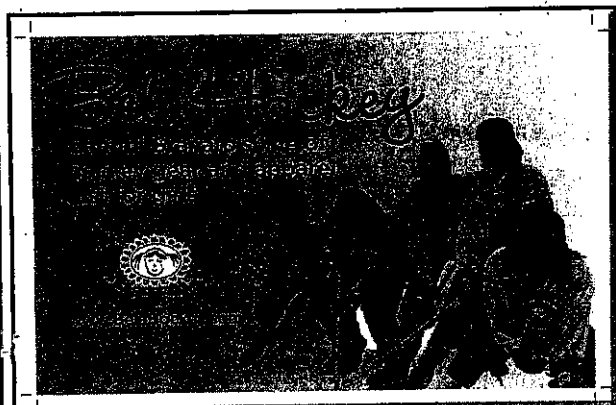

If still a tie, there will be a shoot out (5 players from each team).

If still tied, there will be a sudden death shoot out.

No repeat shooters, until everyone on the team has shot once.

Continue rotation until someone wins!

## Facts about Brain Tumors\*

At this time, brain tumor research is underfunded and the public remains unaware of the magnitude of this disease. The cure rate for most brain tumors is significantly lower than that for many other types of cancer.

- ◆ Each year more than 200,000 people in the United States are diagnosed with a primary or metastatic brain tumor. Primary brain tumors comprise approximately 40,000 of these diagnoses.
- ◆ Metastatic brain tumors, cancer that spreads from other parts of the body to the brain, are the most common types of brain tumors. They occur in 10-15% of people with cancer. Primary brain tumors generally do not metastasize to other parts of the body.
- ◆ Brain tumors are the leading cause of solid tumor cancer death in children under the age of 20, now surpassing acute lymphoblastic leukemia (ALL). They are the second leading cause of cancer death in male adults ages 20-29 and the fifth leading cause of cancer death in female adults ages 20-39.
- ◆ There are over 120 different types of brain tumors, which make effective treatment complicated. They can be malignant or non-malignant, and in either case, can be just as injurious or life threatening. At present, the standard treatments for brain tumors include surgery, radiation therapy, and chemotherapy. These may be used either individually or in combination.
- ◆ There are currently no known causes of brain tumors, however, epidemiological studies are ongoing. Complete and accurate data on all primary brain tumors is needed to provide the foundation for investigations of its causes and research leading to improved diagnosis and treatment.
- ◆ Brain tumors have no socio-economic boundaries and do not discriminate among gender or ethnicity.
