## 7th Annual

# Brain Tumors!

Wear gray in support of brain cancer awareness!

Women's Ice Hockey Tournament

March 22-24, 2013

Union College's Messa Arena

Schenectady, NY

printed on 100% post-consumer recycled content paper

To our 7th Annual Stick It to Brain Tumors Women's Ice Hockey Tournament. In the last six years we raised over \$110,000 for pediatric brain tumor research. Few other diseases attack the very core of our being as directly as brain cancer and this terrible disease has gone without attention for far too long. Hopefully this tournament will help to raise awareness of this devastating disease that threatens the most vulnerable and innocent - our

children. Wear **GRAY** sometime during the tournament to show your support in our battle against brain cancer!

**Thank You** to everyone who helped to make tournament a success. We cannot name everyone who helped but there were some people that were outstanding and must be mentioned. Thank you to **Adam Brinker, Kathy Zakriski, Grammie Petito, Messa Mustangs, Capital District's USA Hockey referees, all the teams and players and Union College.** And we thank all those that made donations and to our **Sponsors** who support us year after year!

**Wear Gray!**  
**Show your support in the**  
**fight against brain cancer!**

All proceeds are being donated to the Pediatric Brain Tumor Foundation (PBTF) and Johns Hopkins Division of Neuropathology for pediatric brain tumor research. Both are 501 (c) (3) nonprofit organizations dedicated to supporting the search for the cause of and cure for childhood brain tumors. John Hopkins is doing research on the type of tumor our son has.

**From our hearts... Thank You!**  
**Debbie and Craig Jackson**

### **Brain Cancer Facts**

Brain tumors and brain cancer are synonymous.

At this time, brain tumor research is underfunded and the public remains unaware of the magnitude of this disease. The cure rate for most brain tumors is significantly lower than that for many other types of cancer.

Brain tumors are the leading cause of solid tumor cancer death in children under the age of 20. They are the second leading cause of cancer death in male adults ages 20-29 and the fifth leading cause of cancer death in female adults ages 20-39.

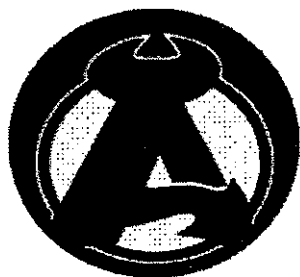

There are over 120 different types of brain tumors, which make effective treatment complicated and treatment for brain tumors can be devastating.

There are currently no known causes of brain tumors.

We try to make this an **environmental-friendly event**. Please recycle your cans, bottles and paper in the recycling bins at the rink. Union College has single stream recycling, so all recyclables go together. This book is printed on 100% post consumer recycled content paper saving 53 pounds of CO<sub>2</sub> equivalents, 219 gallons of water and much more!

### VOICE DESCRIPTION:

**Letting you know how you sound!**  
If you are looking for a voice which has the range from commanding to soothing, you have found your next voice over professional. My unique blend of education can help a corporate mission statement or present children's literature. I possess a friendly, relaxed style of speaking which carries authority, enthusiasm and believability. I can transform the most complex and technical script into absolute clarity. My sound has been described as intellectually fiery and well-cared. Let me make your next script come to life.
